1 Taking better pictures/videos

Capture modes

Choose the mode that best suits your subjects and surroundings.

Capture mode		For
🔲	**Smart Scene**	General picture taking. When the Shutter button is pressed halfway, faces are detected, the scene is analyzed, and the best settings are applied.
P/M	**P, M**	Program, Manual modes for more creative control. (See page 19).
⬆ISO	**High ISO**	People in low-light scenes indoors using a higher ISO.
�']•	**Digital Image Stabilization**	Minimizing the effects of camera shake and subject movement.
SCN	**Scene**	Point-and-shoot simplicity when taking pictures under special conditions.
🎥	**Video**	Capturing video with sound. (See page 3.)
💟	**Favorites**	Viewing favorite pictures.

Using optical zoom

Use optical zoom to get up to 5X closer to your subject while taking pictures/videos. Optical zoom is effective when the lens is no closer than 24 in. (60 cm) to the subject or 7.9 in. (20 cm) in Close-up mode.

Zoom indicator

Optical zoom range | Digital zoom range

W T D
1 Press Telephoto (T) to zoom in. Press Wide Angle (W) to zoom out.

The zoom indicator shows zoom status.

2 Take the picture or video.

Using digital zoom

Use digital zoom to get up to 5X beyond optical zoom while taking pictures. Press Telephoto (T) to the maximum optical zoom. Release the button, then press it again.

NOTE: You may notice decreased image quality when using digital zoom. The slider on the zoom indicator turns red when the picture quality reaches the limit for an acceptable 4 x 6-in. (10 x 15 cm) print.

Using the flash

Use the flash when you take pictures at night, indoors, or outdoors in heavy shadows.

Press the ⚡ button repeatedly to scroll through flash modes. (See flash modes below.)

Flash modes	Flash fires	
⚡A **Auto**	When the lighting conditions require it.	
⚡ **Fill**	Every time you take a picture, regardless of the lighting conditions. Use when the subject is in shadow or is "backlit" (when the light is behind the subject). In low light, hold the camera steady or use a tripod.	
👁 **Red-eye**	If Red-eye Pre-flash is turned off: The flash fires once and the camera automatically corrects red-eye in the picture.	If Red-eye Pre-flash is turned on: The flash fires once so the eyes become accustomed to the flash, then fires again when the picture is taken.
🚫 **Off**	Never.	

Flash-to-subject distance
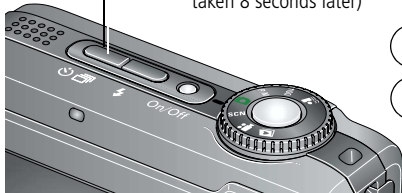

Wide angle: 2–19.3 ft (0.6–5.9 m) @ ISO 400

Telephoto: 2–10.5 ft (0.6–3.2 m) @ ISO 400

Using the self-timer

Use the self-timer when you want to be included in a picture, or to ensure a steady Shutter button press.

1. Place camera on a tripod or flat surface.

2. In most Still modes, press the Self-Timer/Burst button ☉ ⎚:

   • Once for a 10-second delay (so you have time to get into the scene)
   • Again for a 2-second delay (for a steady, auto-shutter release on a tripod)
   • Again for 2-shot (one picture taken after 10 seconds and another picture taken 8 seconds later)

3. Compose the scene.

4. Press the Shutter button halfway, then completely down.

   The picture is taken after the delay.

To cancel the Self-timer before the picture is taken, press the Self-timer/Burst button ☉ ⎚, or press the Shutter button completely down.

Use the same procedure to use the self-timer in Video mode, but:

■ Turn the Mode dial to Video 🎥.

■ Press the Shutter button completely down.

NOTE: The video stops when no storage space remains. Only the 2- and 10-second options are available in video mode.

2 Working with pictures/videos
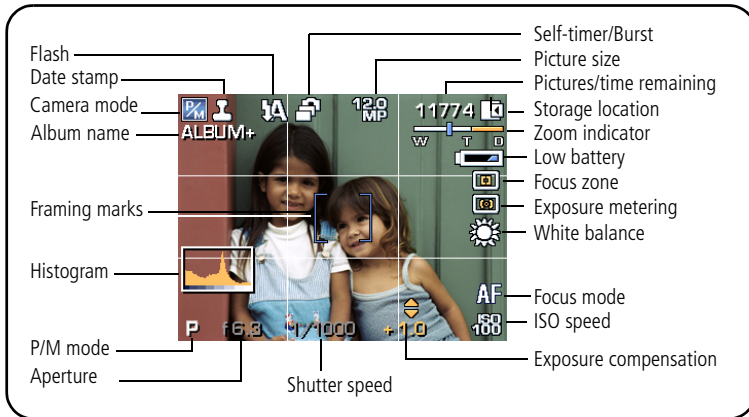

Deleting pictures/videos

1 Press the Review button.

2 Press ◀/▶ to find a picture/video.

3 Press the Delete button.

4 Follow the screen prompts.

Using the undo delete feature

If you accidentally delete a picture/video, use Undo Delete to retrieve it. This feature is available only immediately after you delete a picture/video in Review mode (when the Undo Delete option appears).

1 Press ▲/▼ to highlight Undo Delete.

2 Press OK.

The deleted picture/video appears.

3 Select Exit to exit the Delete menu.

Using the menu button in Review

1 Press the Review button, then the Menu button.

2 Press ◀/▶ to choose a tab:

- ▶ **Review** to view pictures/videos

- ⊞ **Edit** to edit pictures/videos

- ⊙⁄ **Setup** for other camera settings

3 Press ▲/▼ to highlight a setting, then press the OK button.

4 Choose an option, then press the OK button.

Adding sound tags

You can record a voice or sound (up to 1 minute long) to a picture.

NOTE: Only one sound tag can be added to each picture (not to videos).

Recording a sound tag

1 Press the Review button, then ◀/▶ to find a picture.

2 Press the Menu button, then ◀/▶ to highlight the Edit tab.

3 Press ▲/▼ to highlight Sound Tag. Press the OK button.

4 Choose Record, then press OK.

5 Follow the screen prompts.

The sound tag is applied to your picture.

■ Press the Menu button to exit the menu.

Playing a sound tag
1 Press the Review button, then ◀/▶ to find a ⑥ tagged picture.

2 Press ▼ to play the sound tag.

3 Press ▲/▼ to adjust the volume.

4 Press OK to stop playback.

3 Doing more with your camera

Using the Menu button to change settings

NOTE: Some settings remain until you change them; others remain until you turn off the camera.

1 Press the Menu button.

2 Press ◀/▶ to highlight a menu tab:

■ 📷 **Capture** for the most common picture-taking settings.

■ 📷➕ **Capture Plus** for other picture-taking settings.

■ 📐 **Setup** for other camera settings.

3 Press ▲/▼ to highlight a setting, then press the OK button.

4 Choose an option, then press the OK button.

NOTE: Press the LCD/Info button ▢ ⓘ for information about camera settings and options. Some capture modes (page 9) offer limited settings.

P and M modes

Use Program and Manual modes when you want more control over your camera and pictures.

◀/▶ ▲/▼
to change modes

Mode	For	Press ◀/▶ ▲/▼ to control
P **Program**	Ease of auto shooting with full access to most menu options. The camera automatically sets the shutter speed and aperture (f-stop) based on the scene lighting.	Exposure compensation (how much light enters the camera), Focus mode, and ISO speed
M **Manual**	The highest level of creative control. (To prevent blur, use a tripod for slow shutter speeds.)	Aperture, shutter speed, focus mode, and ISO speed

NOTE: Settings you change in P or M mode apply only to pictures taken in that mode. For example, if you change the Color Mode to Sepia while in P or M mode, you retain the default setting of Color for Smart scene and Scene modes.
The settings, including Flash, are maintained for P and M modes—even when you change modes or turn off the camera.

Changing P or M mode settings

P/M modes control ISO, Focus, exposure compensation, shutter speed, and aperture (f-number, also known as f-stop). Use the Menu button to control all other settings.

P/M Options
White—selectable
Grey—non-selectable
Yellow—changeable value
Red—out of range

Focus mode
ISO speed
Exposure compensation
Shutter speed
Aperture
Mode
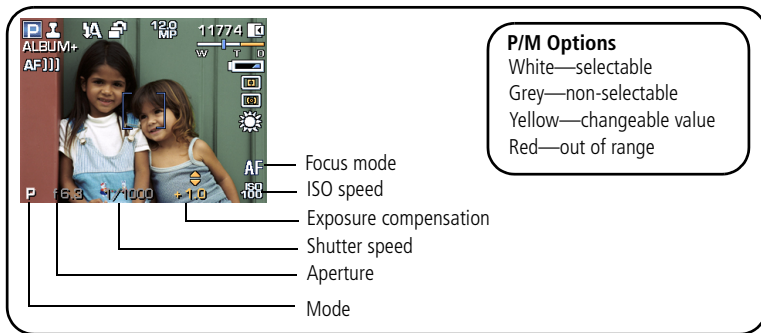

1 Turn the Mode dial to P/M.

The mode options are displayed.

2 Use ◄/► to move between settings and ▲/▼ to change the value.

NOTE: Some settings may be unavailable (see P/M color options above). The arrows disappear when you cannot make further value changes.

3 Take a picture.

P/M mode—see page 19.

ISO speed—adjust the sensitivity to light. Higher ISO indicates greater sensitivity.

NOTE: A higher ISO may produce unwanted "noise" in a picture.

Exposure Compensation—adjust the exposure. If the picture is too light, decrease the setting; if it's too dark, increase the setting.

Shutter speed—control how long the shutter stays open.

Aperture—(also known as f-stop) control the size of the lens opening, which determines the depth of field.

■ Smaller f-stop numbers indicate a larger lens opening; good for portraits and low-light conditions.

■ Larger f-stop numbers indicate a smaller lens opening; keeps the main subject sharp; good for landscapes and well-lit conditions.

Focus mode—select a large or concentrated area of focus.

Focus mode		Description
AF	**Normal AF**	Focus setting for general picture-taking.
⚘	**Macro**	Sharpness and detail in pictures at close range. The camera automatically sets the focus distance depending on the zoom position.
◮	**Infinity**	Distant subjects. Auto-focus framing marks are unavailable.
MF	**Manual**	Focus is at center position. When MF icon appears, press OK to display focus indicator. Press ▲/▼ to adjust the setting.

4 Solving camera problems

For step-by-step product support, visit www.kodak.com/go/z1275support or z1285support and select Interactive Troubleshooting & Repairs.

Camera problems

If	Try one or more of the following
Camera does not turn on.	■ Install new batteries (see page 1). ■ Charge rechargeable batteries.
Camera does not turn off.	■ Remove the battery, then reinsert or replace it. If the camera still does not function, visit www.kodak.com/go/z1275support or z1285support and select Interactive Troubleshooting & Repairs.
Short battery life with Kodak Ni-MH rechargeable digital camera batteries.	■ Wipe the contacts with a clean, dry cloth before loading batteries in the camera. ■ Limit activities that deplete battery power: reviewing pictures/videos and excessive use of the flash. ■ Use the Battery Refresh feature on your camera dock, printer dock, or battery charger (if equipped).
Shutter button does not work.	■ Turn on the camera (see page 2). ■ Wait until the Ready light stops blinking red before attempting to take another picture. ■ Transfer pictures to the computer (see page 5), delete pictures from the camera (page 14), switch image storage locations, or insert a card with available memory (page 8).

5 Appendix

⚠️ **CAUTION:**

Do not disassemble this product; there are no user-serviceable parts inside. Refer servicing to qualified service personnel. Kodak AC adapters and battery chargers are intended for indoor use only. The use of controls, adjustments, or procedures other than those specified herein may result in exposure to shock and/or electrical or mechanical hazards. If the LCD breaks, do not touch the glass or liquid. Contact Kodak customer support.

- The use of an accessory that is not recommended by Kodak may cause fire, electric shock, or injury. For approved accessories, visit www.kodak.com/go/accessories.

- Use only a USB-certified computer equipped with a current-limiting motherboard. Contact your computer manufacturer if you have questions.

- If using this product in an airplane, observe all instructions of the airline.

- When removing the battery, allow it to cool; it may be hot.

- Follow all warnings and instructions supplied by the battery manufacturer.

- Use only batteries approved for this product to avoid risk of explosion. Do not charge non-rechargeable batteries.

- Keep batteries out of the reach of children.

- Do not allow batteries to touch metal objects, including coins. Otherwise, a battery may short circuit, discharge energy, become hot, or leak.

- Do not disassemble, install backward, or expose batteries to liquid, moisture, fire, or extreme temperature.

- Remove the battery when the product is stored for an extended period of time. In the unlikely event that battery fluid leaks inside the product, contact Kodak customer support.

- In the unlikely event that battery fluid leaks onto your skin, wash immediately with water and contact your local health provider. For additional health-related information, contact your local Kodak customer support.

- Dispose of batteries according to local and national regulations. Visit www.kodak.com/go/kes.

  For more information on batteries, see www.kodak.com/go/batterytypes.

Limited Warranty

Kodak warrants Kodak consumer electronic products and accessories ("Products"), excluding batteries, to be free from malfunctions and defects in both materials and workmanship for one year from the date of purchase. Retain original dated sales receipt. Proof of date of purchase is required with any request for warranty repair.

Limited warranty coverage

Warranty service is only available from within the country where the Products were originally purchased. You may be required to ship Products, at your expense, to the authorized service facility for the country where the Products were purchased. Kodak will repair or replace Products if they fail to function properly during the warranty period, subject to any conditions and/or limitations stated herein. Warranty service will include all labor as well as any necessary adjustments and/or replacement parts. If Kodak is unable to repair or replace a Product, Kodak will, at its option, refund the purchase price paid for the Product provided the Product has been returned to Kodak along with proof of the purchase price paid. Repair, replacement, or refund of the purchase price are the sole remedies under the warranty. If replacement parts are used in making repairs, those parts may be remanufactured, or may contain remanufactured materials. If it is necessary to replace the entire Product, it may be replaced with a remanufactured Product. Remanufactured Products, parts and materials are warranted for the remaining warranty term of the original Product, or 90 days after the date of repair or replacement, whichever is longer.

Limitations

This warranty does not cover circumstances beyond Kodak's control. This warranty does not apply when failure is due to shipping damage, accident, alteration, modification, unauthorized service, misuse, abuse, use with incompatible accessories or attachments (such as third party ink or ink tanks), failure to follow Kodak's operation, maintenance or repacking instructions, failure to use items supplied by Kodak (such as adapters and cables), or claims made after the duration of this warranty. **Kodak makes no other express or implied warranty for this product, and disclaims the implied warranties of merchantability and fitness for a particular purpose.** In the event that the exclusion of any implied warranty is ineffective under the law, the duration of the implied warranty will be one year from the purchase date or such longer period as required by law. The option of repair, replacement, or refund is Kodak's only obligation. Kodak will not be responsible for any special, consequential or incidental damages resulting from the sale, purchase, or use of this product regardless of the cause. Liability for any special, consequential or incidental damages (including but not limited to loss of revenue or profit, downtime costs, loss of the use of the equipment, cost of substitute equipment, facilities or services, or claims of your customers for such damages resulting from the purchase, use, or failure of the Product), regardless of cause or for breach of any written or implied warranty is expressly disclaimed.

Your rights

Some states or jurisdictions do not allow exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. Some states or jurisdictions do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. This warranty gives you specific rights, and you may have other rights which vary from state to state or by jurisdiction.

Outside the United States and Canada

In countries other than the United States and Canada, the terms and conditions of this warranty may be different. Unless a specific Kodak warranty is communicated to the purchaser in writing by a Kodak company, no warranty or liability exists beyond any minimum requirements imposed by law, even though defect, damage, or loss may be by negligence or other act.

Regulatory compliance

FCC compliance and advisory

FC | Kodak EasyShare Z1275/Z1285 digital camera

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed or used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: 1) reorient or relocate the receiving antenna; 2) increase the separation between the equipment and the receiver; 3) connect the equipment to an outlet on a circuit different from that to which the receiver is connected; 4) consult the dealer or an experienced radio/TV technician for additional suggestions. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Where shielded interface cables have been provided with the product or specified additional components or accessories elsewhere defined to be used with the installation of the product, they must be used in order to ensure compliance with FCC regulation.
