PSB 700 RE
700 Watt

APN: 3 165 140 254 120

Standard Features:

- Keyless chuck up to 13mm
- Variable speed
- Electronic control
- 'Press and Lock' easy accessory change system

- Lock on switch for continuous operation, fully integrated in the handle
- Forward and reverse operation

Cordless Drills

The Bosch range of cordless drills set the standard for cordless work. Their specially developed high-performance planetary gears enable fast screwdriving around the home, including driving in large numbers of screws in a row.

In addition to the more compact and 20% lighter design of the battery packs, they also feature intelligent chargers which ensure careful and safe charging of the battery – resulting in longer battery life.

Bosch cordless drills come complete with carry case, battery pack and fast charger and are suitable for use in wood and metal.

APN: 3 165 140 211 451

Standard Features:

- Bosch auto lock system for easy drill bit changes
- High quality, keyless chuck up to 10mm
- Run out brake to stop the motor in the shortest possible time
- Electronic control to enable operator adjusted speed
- Fast charge battery packs to minimise tool downtime
- 5 torque settings plus drill for user versatility
- Forward and reverse operation with a lock to prevent accidental starts
- Aero soft grip for user comfort

Cordless Impact Drills

The newly developed Bosch range of cordless impact drills includes all the standard cordless drill features - but with a bonus! With their added impact function, these cordless drills are also suitable for use in masonry.

The Bosch cordless impact drills feature a professional 1/2" x 20 spindle thread to handle all your tough drilling and screwdriving jobs around the home.

All Bosch cordless impact drills come complete with carry case, battery pack and fast charger.

Orbital Sheet Sanders

Orbital sheet sanders are great for sanding flat surfaces with precision and speed and are ideal for use on wood or metal. They are suited to smooth sanding and paint removal – and so are the perfect sander for your renovations. Their ergonomic design and new Microfilter dust extraction system ensure a comfortable and clean working environment.

PSB 18VE-2

PSS 28 AMF

**250 Watt 1/2 Sheet
227 x 114mm**

APN: 9 311 831 502 030

Standard Features:

- Sanding sheet tensioning to ensure sheets are firmly and securely in place
- Dust extraction directly through the sanding sheets and the

- sanding plate into the dust bag or microfilter for a clean work place
- Auxilliary handle for safe tool guidance and user comfort

Bosch Green

Random Orbital Sanders

Bosch random orbital sanders are the professionals for sanding surfaces. They are suitable for sanding and polishing wood, metal, paint and varnish and are ideal for curved surfaces. The random orbital sanders ensure soft initial sanding without scoring or marking the surface. Their ergonomic design means they are easy to guide - resulting in fatigue-free and safe work for you.

Microfilter System

The unique Bosch Microfilter System is the latest weapon in the fight for dust-free renovating.

The benefits of this system include up to 120% less dust during sanding, cleaner air and a smoother finish, as dust particles are not reground into the work surface.

The Microfilter System is a re-useable system that is easy to empty and clean. It is suited for use with all Bosch orbital, random orbital and belt sanders.

PEX 270 AE

270 Watt

APN: 3165140 208 734

PEX 400 AE

400 Watt

APN: 3 165 140 237 376

Standard Features:

- Electronic control means operator can control orbit rate
- Velcro fastening of sanding discs means quick and easy sanding sheet changes
- Dust extraction available via the microfilter system means virtually dust free operation
- Auxilliary handle for user comfort
- 125mm disc sanding area

The dust is extracted through the sanding sheet and the sanding plate into the Microfilter System.

The Microfilter System captures and filters the dust, ensuring that only air passes through the filter.

The Microfilter System is reusable and is easy to empty and clean.

Bosch Green

Belt Sander

Bosch belt sanders offer you non-stop performance. Belt sanders are terrific for sanding down large surfaces, stripping material powerfully and quickly. They can be used on wood, plastic and metal. Their low centre of gravity enables you to work effortlessly - without having to apply heavy pressure.

Delta Sanders

Bosch delta sanders are top performers for corners, louvres, mouldings and edges. Wherever detailed accuracy is needed, these sanders ensure perfect results. Their uniquely designed triangular sanding plate allows for easy access in hard to reach places. Their ergonomic design and low weight mean outstanding user comfort.

Jigsaws

The Bosch range of jigsaws gets you off to a great start for any DIY project. With their excellent SDS easy blade change system, you can change jigsaw blades in seconds – with one hand. The new ergonomic design ensures optimal user comfort during use. When it comes to sawing – whether in wood, metal or plastic or whether you need straight, curved, plunge or mitre cuts – the Bosch jigsaws are unbeatable.

Standard Features:

- Electronic control that enables the operator to adjust the speed to suit the material
- Option of speed control via trigger switch enables slow initial cutting
- Single handed SDS system means safe and effortless saw blade change
- Roller guide to ensure accurate and precise cuts
- Tilt range of sole plate up to 45° in both directions
- Dust extraction allows a clear view on to the work area for the user

Pendulum:

- Some models feature a pendulum action that makes cutting quicker and easier and increases the life of the jigsaw blades

PST 650 E

52mm maximum plunge depth

APN: 3 165 140 018 807

Standard Features:

- Fine and quick adjustment of routing depth
- Base plate with sliding surface for ease of use
- Parallel guide routing with scale for precise slot cutting
- Dust extraction connection allows for a clear view of the cutting area
- Two guide columns for the routing base
- Precision collet for precise running

Bosch Green

Planers

If you want rapid headway when working with wood – the planer is the tool for you. Bosch planers provide efficient, high accuracy planing with high material removal and are also suitable for rebate work. The combined guide and planing depth adjustment knob provides secure guidance and stepless adjustment, even during planing.

PHO 16-82

550 Watt

Planing depth: 0-1.6mm

Rebate depth: 0-8mm

APN: 3 165 140 197 366

PHO 25-82

750 Watt

Planing depth: 0-2.5mm

Rebate depth: 0-24mm

APN: 3 165 140 056 021

Standard Features:

- Guidance handle for safe guidance of the planer
- Cutting depth adjustment with a high level of variability
- Switch-on safety lock to prevent unintentional switching on
- 82mm planing width
- Dust extraction connection, which can be positioned to the left or right, allowing for a clear work area
- Electronically balanced cutter block
- Parking rest/shoe for safe resting of the tool

Electric Tackers

The Bosch electric tacker is a great tool for fastening panels, stapling insulation and decorative materials. The Bosch tackers feature electronic control which enables adjustment of the impact force of the tool to suit the material in use. The tackers can be adjusted between single impact or continuous impact for quick, repeat work. With their practical, bottom-loading system and staple supply display, the tackers are easy to use. Bosch tackers can be used with nails, staples and pins.

PTK 14 E*

Nails: 14mm long

Staples: 14mm

APN: 3 165 140 001 106

*Model features Duotac and electronic

PTK 23 E*

Nails: 23mm long

Staples: 23mm

Pins: 23mm

APN: 3 165 140 058 452

*Model features electronic and fastener pre-selection

Standard Features:

- Bosch Electronic control
- Fastening-type pre-selection allows for quick change to the pre-selected fastening types and means you don't need to change the magazine
- Bosch Duotac Automatic enables you to work with one or two staples at the same time

The simultaneous setting of two staples prevents tearing out of the material

- Ergonomically shaped handle for fatigue free operation
- Staple nose located at the front for stapling close to an edge

Bosch Green

Glue and Heat Guns

Bosch glue guns can stick anything together – wood, plastic metal, ceramics, glass, textiles and leather. They are ideal for fixing models, doing repairs, sealing and for making joints. A must-have tool for all your home projects.

The Bosch heat guns are designed to be easy to use with a low noise motor, an enclosed handle for safe handling and a built-in stand for stationary use. They are suitable for thawing, drying, tinplating and dust-free paint stripping.

Vacuum Cleaner

The new all purpose vacuum cleaner is suited for wet and dry vacuuming in the workshop, house, courtyard, garden or car. With its large 21 litre container, durable castors and robust, permanent filter, the Bosch all purpose vacuum cleaner is the go anywhere vacuum cleaner for you!

PKP 18 E

APN: 3 165 140 078 481

Standard Features:

- Bosch constant electronic for automatic temperature control and constant glue consistency
- Mechanical feed system that provides control to the amount of glue applied
- Practical nozzle with heat protection shield and anti-drip device
- Temperature resistant housing with double insulation

PHG 2*

1500 Watt

Temperature: 300/500°C

APN: 3 165 140 221 023

*This model does not have a cool air setting

Standard Features:

- Detachable heat shield for working in tight spots
- Stable base for stationary use
- 50°C air output for cooling down the heating element

PHG 530-2

1600 Watt

Temperature: 50/400/530°C
