Control 4®

System Remote Control SR-250 User Guide

Introduction

Before you start to use the Control4® SR-250 (models C4-SR250-Z-B and C4-SR250B-Z-B), ensure that the devices in your Control4 system are added and configured. **Note**: The SR-250B runs on OS 2.0 and later.

Uses and Features

The System Remote Control SR-250 (or SR-250) is intended to be used with a Control4 system. Use this guide along with the *Control4 System Quick Start Guide* and *Control4 System User Guide* online help for best results. These are located in my.control4.com.

Use the System Remote Control to:

- Navigate system menus and access media on a TV monitor using the On-Screen Navigator.
- Navigate system menus and access media using the System Remote Control's List Navigator.

This System Remote Control extends the capabilities of a 'universal' remote that simply learns the IR codes from TVs, VCRs, and CD/DVD players.

Features:

- Bi-directional communication with system components.
- Backlit display that converts the Control4 Navigator into a text format.
- 47 buttons total: 2 for quick access, 4 programmable, 8 transport control, plus alphanumeric keys.
- ZigBee wireless.
- Wake up when picked up or moved.

Battery Maintenance

Refer to the System Remote Control SR-250 Setup Guide for instructions about how to install and maintain the batteries.

This device requires four (4) AAA batteries.

For battery safety information, see the *System Remote Control SR-250 Setup Guide*.

System Remote Control (SR-250) Buttons

The list below show the buttons to use with your Control4 system.

Room Off: Turns off the devices in the room.

Room and List Navigator: Lists room, options, current time.

List: Displays system list in window. Use with arrow and Select buttons.

Ambient Light Sensor: Enables backlight on buttons when the room is dim.

Watch/Listen: Watch movies, TV. Listen to the radio, CDs, etc.

4: Press to turn on TV and the On-Screen Navigator.

Programmable Buttons: Have your Installer program these buttons for shortcuts. See "Programmable Buttons" below to identify and write down the functions.

Guide: Displays the channel guide (program lists) for the device's channels On-Screen. Also used to toggle List or Grid views.

Prev: Goes to the previous screen.

PG Up/PG Dn: Pages up or down for the device's menus.

Vol +/ Vol -: Increase or decrease the volume.

Left/Right, Up/Down Arrows: Moves through the List Navigator or On-Screen.

Select: Selects an option on the On-Screen or List Navigator.

Ch +/ Ch -: Move up or down channels.

MUTE: Mutes the audio.

INFO: Displays current channel/program info for the device.

MENU: Displays the menu for devices.

CNCL: Cancel last action for the device.

Play: Plays a movie or video.

Skip Forward/Skip Back: Skips through a movie or video.

Pause: Pauses the movie or video. Press Play to start.

Fast Forward/Rewind: Advances or rewinds the movie or video.

DVR: Plays the DVR (digital video recorder) or device.

Stop: Stops the movie or video. Press Play to start.

Record: Activates the current device's record function.

Alphanumeric Keypad: Use to type letters or numbers if you have an on-screen keyboard, or to change channels, set light levels, or enter text.

Programmable Buttons

If your Installer programs the colored buttons, note here what they represent:

- Red: _____
- Green: _____
- Yellow: _____
- Blue: _____

Quick Access Buttons

Use the Quick Access buttons (Watch and Listen) on the SR-250 to watch the TV or movies or listen to music by List or the last three (3) devices used. Can be configured by your Dealer.

SR-250 and the On-Screen Navigator

To control devices from the SR-250 using the On-Screen Navigator:

1. On the SR-250, press the red **4** button to access the TV's On-Screen Navigator.
2. To navigate through the On-Screen Navigator and the Control4 system, press the **arrow** buttons, and then press the **Select** button to make your selection.
3. See the *Control4 System Quick Start Guide* and the *Control4 System User Guide* to learn how to navigate through the system and discover all of the cool features of the Navigators.

SR-250 List Navigator

To control devices from the SR-250 OLED window:

1. On the SR-250, press the **List** button to access the SR-250's List Navigator. House, Lights, Music, Videos, and other options appear.
2. To navigate through the List Navigator and the Control4 system, press the **arrow** buttons to scroll through the list.
3. Keep pressing the arrow buttons until you get to your desired location.
4. Press the **Select** button to make your selection.
5. See the *Control4 System Quick Start Guide* and the *Control4 System User Guide* online help to learn how to navigate through the system and discover all of the cool features of the Navigator.

Preferences

To set the preferences:
1. Press the **List** button on the System Remote Control.
2. Use the **arrow** keys to scroll down the list. Press **Select** to select Info. Scroll down to Config, and then press **Select** to set the LCD display preferences or to view the battery level:

   - **Display Brightness** (SR-250)—Use the Right or Left arrow keys to move the slider bar to brighten or dim display.
   - **Keypad Brightness** (SR-250)—Use the Right or Left arrow keys to move the slider bar to brighten or dim the keypad display.
   - **Motion Detect** (SR-250)—Use the **Up** or **Down** arrow buttons for Off (High, Medium, and Low intensity). Press **Select**.
   - **Battery Level** (SR-250)—View the battery level in percent.
   - **About**—Lists the software version, date and time.
   - **Set Contrast**—Use the arrow buttons to move slider bar to increase or decrease contrast. Press **Select**.
   - **Language (OS 2.0 and later)**— Use the **Up** or **Down** arrow buttons to locate the language. Press **Select**.
